FENTANYL

It Only Takes a Small Amount

DRUG ENFORCEMENT ADMINISTRATION

FENTANYL

Fentanyl—Even this small amount can lead to significant health complications or DEATH.

For more information and resources, visit www.dea.gov

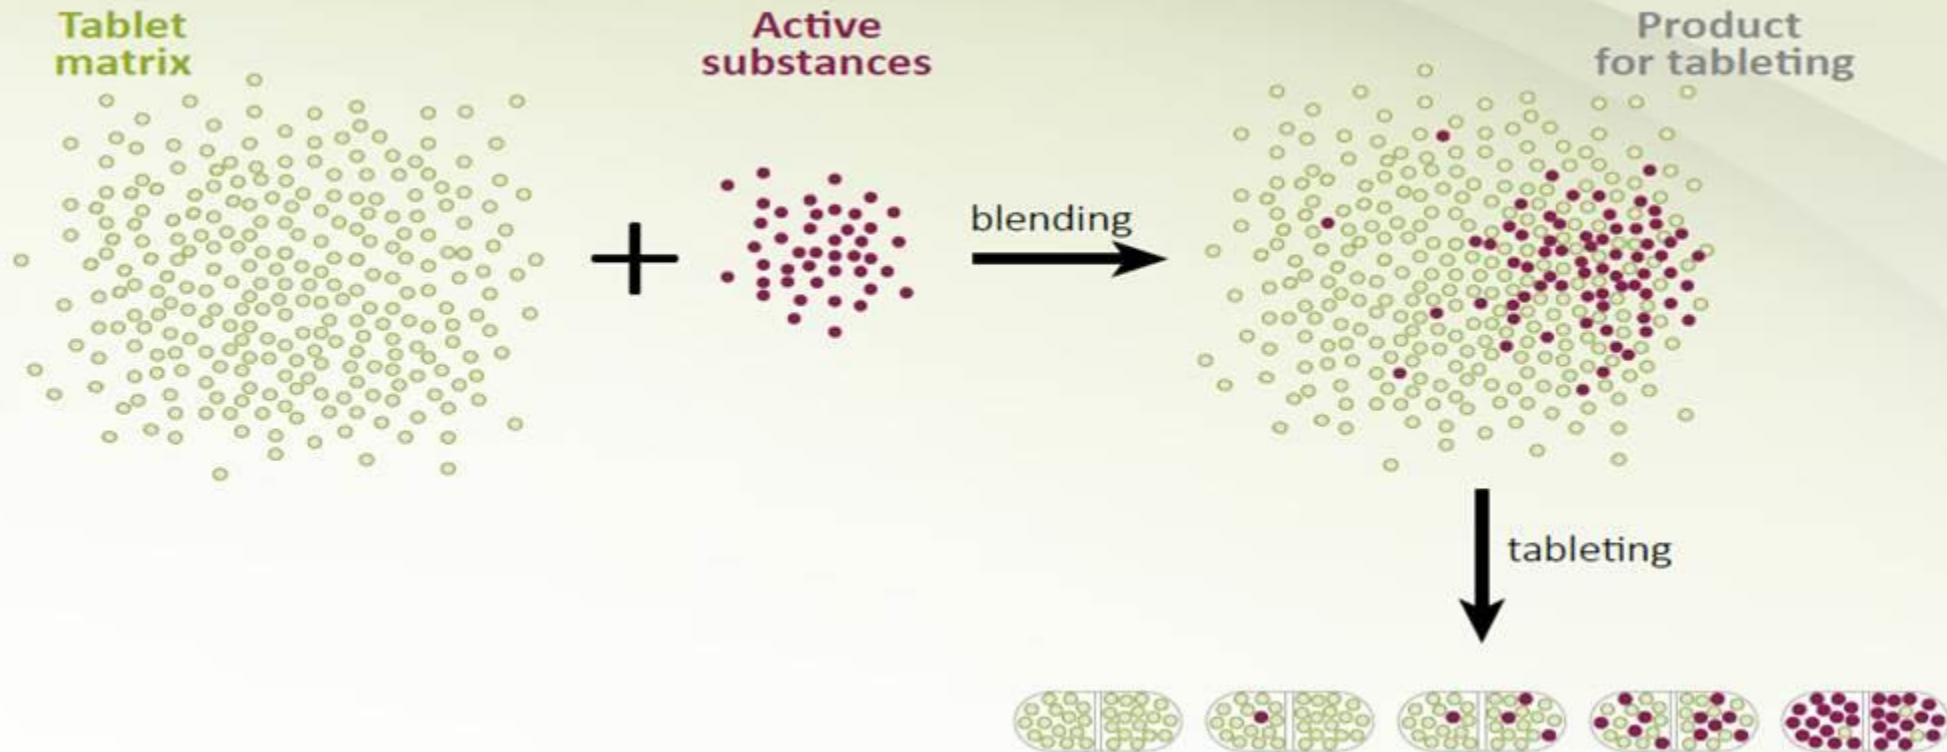

The Mill

The Mixture

CRYSTAL METH

Average New England Meth Lab – Can Produce a 5-10 Grams in an Hour.

EQUIPMENT

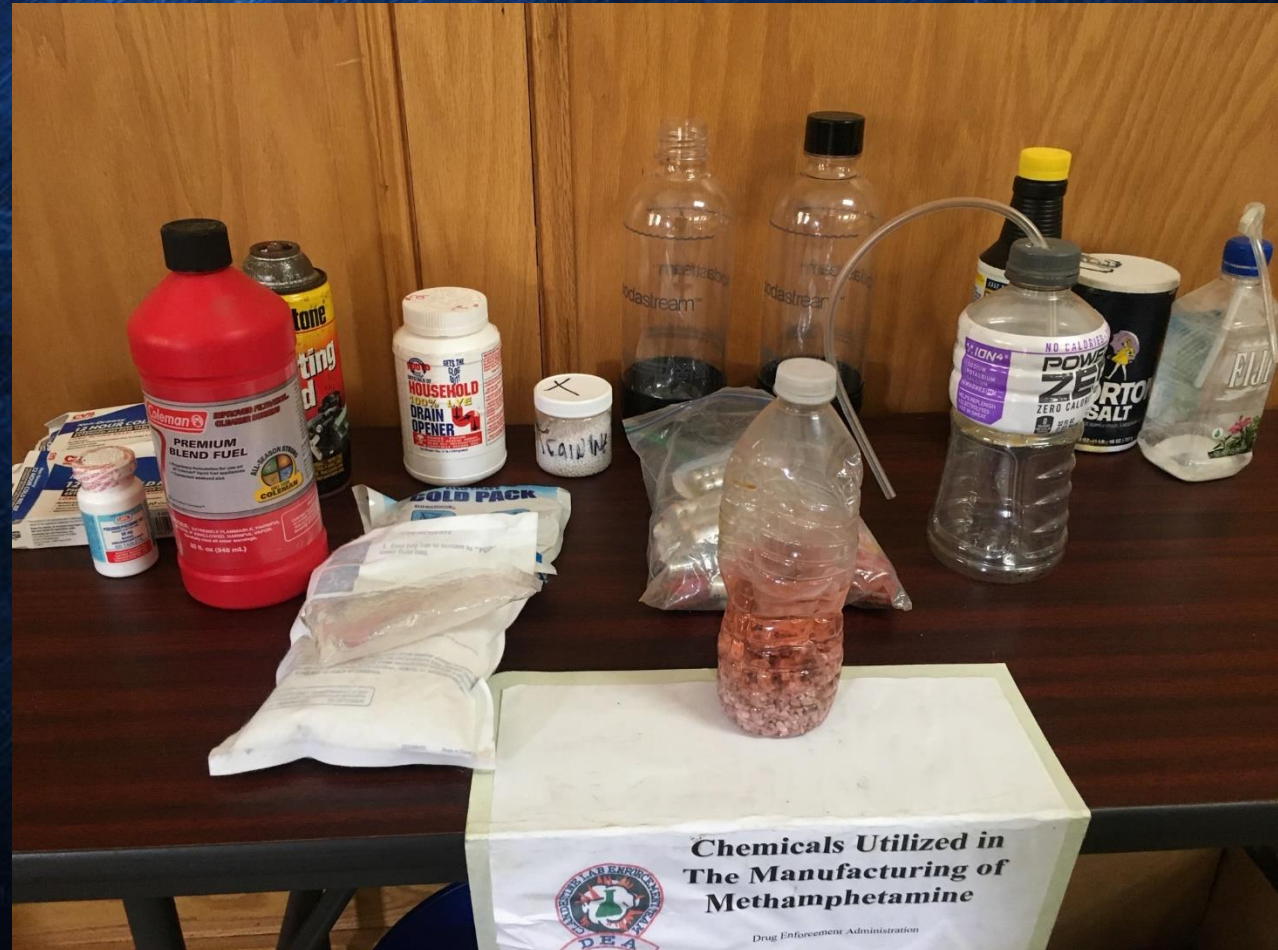

Glass Syedropper
3 small glass bottles
w/ Lids @ 3oz.
1 marked @ 1.5 oz
1 CLEAR!! MUST BE CLEAR
1 PYREX DIST. Measur
1 Glass Quart Jar
Sharp Scissors

Coffee Filters
Measuring Cup & Spoons

Dilute HCl (Muriatic acid) POOL SECTION (HARDWARE STORE)
NaOH (Lye) (DRAIN CLEANER RED DEVIL)
Ethyl Ether (ENGINE STARTING FLUID)
Dsoxyephedrine (VICKS NASAL INHALERS)
Distilled Water (HIGH CONTENT = PRESTONE BRAND)

Ingredients

Dilute HCl (Muriatic Acid) POOL SECTION (HARDWARE STORE)
NaOH (LYE) (DRAIN CLEANER RED DEVIL)
Ethyl Ether (ENGINE STARTING FLUID)
Dsoxyephedrine (VICKS NASAL INHALERS)
Distilled H₂O (PRESTONE BRAND)

But – The Transnational Criminal Organizations Are The *Professionals*

RIGHT NOW

**LAS VEGAS MAN SENTENCED FOR DISTRIBUTING METH;
U.S. ATTORNEY: PART OF GROWING PROBLEM IN NH**

FENTANYL & METH PILLS

The Latest THREAT is the WORST We Have Seen

FAKE Adderall made with METH

Street Name: *Dirty 30's* *Made With Fentanyl*

They Look Real...

FAKE XANAX Made With Fentanyl

DEA Lab has reported that 26% of pills being analyzed contain a lethal dose of Fentanyl.

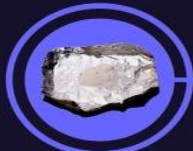

WARNING!!

Can you spot the fake?

Meth use has become a major problem in our communities around New Hampshire

Meth dealers are now manufacturing and selling counterfeit Adderall pills made with methamphetamine and caffeine

Signs of counterfeit pills: pills not in a prescription bottle, crumbling/powdery pills, smooth surfaces, pills that have different colors but the same shape and imprint.

More methamphetamine is ingested from using a counterfeit pill than when smoked or injected.

These counterfeit Adderall pills appear legitimate and intentionally have a similar size, shape, color, and identification stamp as the authentic Adderall pills

Meth dealers are targeting our youth population with these pills (students in colleges, high schools, middle schools)

If it's not a legal Rx, don't risk it
