[DO NOT READ TO CLIENT] The client should be encouraged to list the substances on their own. If they are unsure, the list from the table below can be read to the client. Please note that not all substance use is considered harmful or illicit – it may be that a substance is prescribed by a licensed provider, or that the client uses the substance in accordance with official, national safety guidelines. In such instances, clarification from the client should be sought, but if the substance is only taken as prescribed or used on each occasion in accordance with official, national safety guidelines, then it is not considered misuse.
